

## Press Announcement

June 4, 2008 – Broomfield, Colorado, USA –

### Russia's first OSB plant chooses Casey Industrial

**Casey Industrial** – [www.caseyind.com](http://www.caseyind.com) - has been chosen by ChTPZ Group to provide construction management services for Russia's first OSB (Oriented Strand Board) plant.

ChTPZ Group is working closely with the Kirov Oblast Government to develop an integrated industrial complex that will manufacture value-added building products through use of state-of-the-art technology and the local timber resources. **Casey Industrial** was selected due to their quarter-century of OSB plant construction experience in North America, the birthplace of OSB. ChTPZ also utilized Casey's industry knowledge to assist with plant layout, vendor selection, and implementation of value-engineering concepts in preparing the project budget and schedule.

Construction of this facility, with a production capacity of 500,000 cubic meters per year, commenced Spring 2008. All major equipment has been ordered, and the goal is to initiate production start-up in late 2009.

For further information, contact Tom Lepak, Casey Industrial's vice president, business development at 720-974-2659 and [tlepak@caseyind.com](mailto:tlepas@caseyind.com) or Richard James, vice president, wood products division at 303-524-5386 and [rjames@caseyind.com](mailto:rjames@caseyind.com).
