

## Press Announcement

December 15, 2008 – Broomfield, Colorado, USA –

### **Casey Industrial constructs International Renewable Energy Project of the Year**

The first Energy-from-Waste facility built under the U.S. Environmental Protection Agency's New Source Performance Standards has been named 2008 "Project of the Year" in the renewable energy category by *Power Engineering* magazine.

Broomfield, Colorado- based **Casey Industrial** – [www.caseyind.com](http://www.caseyind.com) – provided balance-of-plant construction services for the \$120 million expansion to the Lee County Resource Recovery Facility in Fort Myers, FL. The facility now processes 1,836 tons of municipal solid waste daily, while generating up to 57.3 megawatts of electricity, enough energy to power 36,000 homes.

For further information, contact Tom Lepak, Casey Industrial's vice president, business development at 720-974-2659 and [tlepak@caseyind.com](mailto:tlepak@caseyind.com).
