

Press Announcement

November 18, 2008 – Broomfield, Colorado, USA –

PacifiCorp selects Casey Industrial for AQC projects

Casey Industrial – www.caseyind.com - has been contracted by PacifiCorp – www.pacificorp.com for the full engineering, procurement, construction and start-up of enhanced air quality control technology at both Hunter and Huntington power plants in Utah.

PacifiCorp has elected to replace the existing electrostatic precipitators on Huntington Unit 1 and Hunter Unit 2 with fabric filter baghouses. The **Casey Industrial** team includes **Hamon Research-Cottrell, Inc.** (fabric filter baghouses supplier) and **Stanley Consultants, Inc.** (balance-of-plant engineering support). The new Huntington Unit 1 baghouse is expected to be brought online in late 2010. Hunter Unit 2's baghouse will be brought online in 2011.

For further information, contact Tom Lepak, Casey Industrial's vice president, business development at 720-974-2659 and tlepak@caseyind.com.
