STEC selects Casey Industrial for new Power Plant

Casey Industrial – www.caseyind.com - has been contracted by **South Texas Electric Cooperative** – www.stec.org for the mechanical and electrical construction of their new 202.5-MW gas-fired power plant in Pearsall, TX.

The Pearsall plant will utilize twenty-four **Wartsila** engines to provide optimum flexibility in servicing the region's growth. **Burns & McDonnell** is assisting STEC with engineering, permitting, and construction management. The first phase of engines will achieve commercial operation in 2009, and the balance will be completed in 2010.

For further information, contact Tom Lepak, Casey Industrial's vice president, business development at 720-974-2659 and tlepak@caseyind.com.
