

Recruitment Fraud Notice

A new recruitment scam has come to our attention.

Casey Industrial does not charge application fees in exchange for job placement. If you receive an email from an alleged Casey Industrial recruiter that contains personal information, requests fees for employment, or suggests an interview via Instant Messenger, it is fraudulent. For the latest official information regarding job openings, please refer to the "Careers" section of www.caseyind.com.

All official Casey Industrial email communications are sent with an @caseyind.com email address and a legitimate email from a Casey Industrial recruiter will include the recruiter's direct contact information.

We value our professional relationships with our employees and recruitment candidates. If you believe you have received a fraudulent job offer or any other related communication, please contact us at jobs@caseyind.com.
